National Health Center Week, 2020 - Proclamation

"Community Health Centers: Lighting the Way for Healthier Communities Today and in the Future!"

Whereas: For over 50 years, Community Health Centers have provided high-quality, affordable, comprehensive primary and preventive health care in our nation's underserved communities, delivering value to, and having a significant impact on America's health care system.

Whereas: As the country's largest primary care network, Community Health Centers are the health care home for 30 million Americans in over 14,000 communities across the nation. One in every twelve people in the United States gets their care in a Community Health Center.

Whereas: Community Health Centers are a critical element of the health system, serving both rural and urban communities, and often providing the only accessible and dependable source of primary care in their communities. Nationwide, Community Health Centers serve one in every five residents of rural areas.

Whereas: Every day, Community Health Centers develop new approaches to integrating a wide range of services beyond primary care, including oral health, vision, behavioral health, and pharmacy services, to meet the needs and challenges of their communities.

Whereas: Community Health Centers are governed by patient-majority boards, ensuring that the patients of each health center are engaged in their own health care decisions.

Whereas: Community Health Centers are locally owned and operated small businesses that serve as critical economic engines, helping to power local economies by generating \$54.6 billion in economic activity in some of the country's most economically deprived communities.

Whereas: Community Health Centers nationally employ more than 236,000 people, including physicians, nurse practitioners, physician assistants, and certified nurse midwives who work as part of multi-disciplinary clinical teams designed to treat the whole patient.

Whereas: The Community Health Center model continues to prove an effective means of overcoming barriers to healthcare access, including geography, income and insurance status - improving health care outcomes and reducing health care system costs.

Whereas: Community Health Centers reduce overall costs of care by helping manage patients chronic conditions, which keeps them out of costlier health care settings like hospital emergency rooms.

Whereas: Community Health Centers are on the front lines of emerging health care crises, providing access to care for our nation's veterans, addressing the opioid epidemic, and responding to public health threats in the wake of natural disasters.

Whereas: National Health Center Week offers the opportunity to celebrate America's over 1,400 health center organizations with over 12,000 service delivery sites, their dedicated staff, board members, patients and all those responsible for their continued success and growth since the first health centers opened their doors more than 50 years ago.

Whereas: During National Health Center Week, we celebrate the legacy of America's Community Health Centers, and their vital role in shaping the past, present, and future of America's health care system.

NOW, THEREFORE, I, _____, Mayor of _____ do hereby proclaim August 9 -15, 2020 as National Health Center Week. I encourage all to take part in this week by celebrating the important partnership between Valley-Wide Health System, Inc. and the communities it serves.

Jesus,

Since 1919, Pittsburg Tank & Tower Group Maintenance Division has been providing tank services to our customers in over 60 countries, proudly making us a Global Company. Our wealth of experience encompasses all aspects of tank maintenance services, from paint and repair to dismantle and inspections. Our expertise expands beyond maintenance to tank design, fabrication, erection and professional engineering services for new tanks and modifications to existing tanks, including raising, lowering and moving services.

Having been ranked in the Top 600 Specialty Contractors and among the top 15 steel erectors according to Engineering News Record, it was natural to expand our offerings into the Custom Engineering and Manufacturing Industry. Our sister company, Allstate Tower Inc., manufactures structural steel components for towers and agricultural material handling, including complete turn-key systems and installation services.

At Pittsburg Tank & Tower Group, it's not only about the products we produce, but the people as well. Being a family-operated company with a commitment to the Safety and Health of our family of employees, we have worked with the Commonwealth of Kentucky's Labor Cabinet to achieve our SHARP Certification (Safety and Health Achievement Recognition Program), and we are recognized as a Drug Free Workplace in accordance with the standards set forth by the regulation; 803 KAR 25:280 Certification of Drug-Free Workplace.

We are proud to provide you with this proposal and look forward to working with you should you decide to accept it. To accept the proposal, simply sign and date one (1) copy and return it to our Henderson, KY office either by mail, fax or email.

Please feel free to contact us should you have any questions or concerns, or simply want to discuss the proposal further.

Respectfully,

**Pittsburg Tank & Tower Group
Maintenance Division**
